## 5TR / 18kW Split AC Unit

### Equipment Overview

Byrne's rental fleet has a full range of air-conditioning units ranging from 2TR – 50TR (7kW – 176kW) in 50Hz & 60Hz. Our units come in split or package type and support our clients with spot & comfort cooling.

We have an in-house design team that can calculate the heat load & air flow requirements along with selecting the best equipment to suit our clients site conditions.

Our units are skid-mounted with frame for ease of loading & unloading and come with cable, hose (if applicable) and cable to plug-and-play for quick installation.

Byrne's climate control division can also provide auxiliary power including generators, secondary distribution & accessories to provide a one stop shop product offering.
