

Equipment Overview

Byrne's rental fleet of over 500 air compressors range in volume size from 185 CFM to 1500 CFM with pressure variants starting at 125 psi through to 365 psi.

Specifications of units available include industrial, rigsafe/safe area and Zone 2, with options of either a DNV 2.7-1 certified container or frame, skid mount, wheeled or stand-alone with noise attenuated enclosure and base.

Our compressors offer excellent space efficiency on deck and in confined spaces. Certified container and lifting frame units are stackable and come with an integrated drip-tray, providing environmental and safety protection.

Specifications & Key Features

Key Features

- Range in volume size from 185 CFM to 1500 CFM
- Pressure variants start at 125 psi through to 365 psi
- All compressors are fitted inside silent canopies with sound attenuation
- All compressors are specified to work in harsh and hot environments and up to 50°C temperatures
- Industrial, rigsafe/safe area and Zone 2 specifications
- Options of DNV 2.7-1 certified container or frame, skid mount, wheeled or stand-alone with noise attenuated enclosure and base are available

In addition, Byrne can provide bundled fuel tanks, drip trays, cables, secondary power distribution and transformers.
