

Case Study

Site Facilities and Camp Setup for Film Shoot in Abu Dhabi

Date: 2022

Location: Qasr Al Sarab Desert, Abu Dhabi, UAE

Client Overview: Our client, a major film production company, required comprehensive site facilities and welfare solutions to support the crew during the filming of Dune 2 in the remote Abu Dhabi desert. The project involved multiple shooting locations spread across the harsh desert environment, with a significant crew requiring on-site accommodations and amenities.

Project Challenges: Filming in the remote Qasr Al Sarab desert posed several logistical challenges, including the need for reliable power, facilities, and accommodations for a 170-person crew across five different shooting locations. The extreme desert environment required durable and well-coordinated site services to ensure smooth operations throughout the production.

Solution Provided: We provided a fully integrated site facilities and welfare package, including:

- **Camp Setup for 170 Crew Members:** Established a 170-man camp equipped with sleeping cabins, dining areas, and recreational facilities to ensure comfort and welfare for the crew during the entire filming period.
- **Site Facilities at 5 Locations:** Deployed essential site

infrastructure, including cabins, toilets, power generators, fencing, and lighting towers at five separate shooting locations. This provided the production team with the necessary facilities to maintain a seamless workflow despite the remote and challenging environment.

- **Power and Utilities Support:** Installed reliable power systems to ensure continuous energy supply for the film set, camp facilities, and technical equipment, with additional systems to manage water supply, waste disposal, and sanitation needs.

Operational Support: Our team managed the logistics, installation, and maintenance of all facilities and services, ensuring that each site was fully operational before filming began. We provided ongoing support throughout the production, coordinating equipment deliveries, managing utilities, and handling real-time problem-solving to keep the project on track.

Result: The film production was a resounding success, with our site facilities and welfare support ensuring that the crew had everything they needed to work efficiently in the remote desert. Our turnkey solution contributed to the smooth operation of the film set, helping the production team stay on schedule and focus on their creative work.
