This turnkey solution included accommodation, power, water, sewage, and other essential services, ensuring the efficient operation and comfort of the workforce in challenging conditions

CLIENT TESTIMONIALS

Customer satisfaction is at the core of Byrne's value proposition and drives its high level of repeat business.

"We at ARAMCO Fadhili Gas Plant Department would like to hereby extend our sincere appreciation and gratitude for the outstanding service provided by Byrne Equipment Rental as a Partner and Vendor for equipment rental services.

Byrne Equipment Rental, has been committed towards their scope of work, under several of our Mid Form Contracts, with their extensive fleet of high-quality equipment, coupled with their prompt and efficient 24/7 periodic maintenance and emergency breakdown support services, which has greatly facilitated our operations.

In summary, Byrne Equipment Rental has consistently demonstrated excellence in equipment rental services."

*Maintenance & T&I Supervisor
Saudi Aramco*

"I am writing to express my utmost satisfaction and gratitude for the exceptional Camp & Equipment Rental Services provided by Byrne Equipment Rental.

I appreciate the Turnkey solutions provided by Byrne Equipment Rental including equipment rental, camps, catering & Diesel supply that Byrne provides, making my overall journey incredibly enriching.

Thank you once again for the outstanding equipment rental services and for exceeding my expectations. I am a satisfied and grateful customer, and I look forward to a continued relationship with Byrne."

*Senior Project Manager
NMDC*

"This collaboration has been instrumental in successfully delivering a myriad of the region's most esteemed projects and events. Notable examples include but are not limited to the Red Bull initiatives, the Dakar Rally, Formula E, Saudi Arabia Grand Prix 2021 and many other prestigious undertakings.

Throughout our longstanding partnership, we have consistently observed the exceptional quality of products and services rendered by Byrne. This collaborative spirit has been particularly evident when executing projects and orchestrating events, often within remote and logistically challenging locales, and under stringent time constraints such as NEOM and Al Ula."

Temporary Buildings

Modular units (sleepers)

- 20x8ft to 40x12ft
- 1 man to 16 men
- Cabin/container

Blast Resistant Module BRM

- O&G industry compliant building with 5PSI, 8PSI and 10PSI
- Other products include kitchen, reefer, prayer room

Office cabin

- 20x8 ft to 40x12ft
- Open plan/multiroom
- Container/flatpack

We also provide solar solutions for our buildings

bynerental.com

Power Generation

Generators

- 20KVA to 1650KVA
- 50/ 60 HZ

Loadbanks

- 136kw to 2500KW
- 50/60HZ

Transformers

- 2kVA to 4mVA, plus small 220 V to 110 V multi output

Other power accessories:

- Power distribution boards and Switch gear (low and medium voltage distribution)
- Cables
- Change over switches

Diesel Tanks

- 200 to 6000gallons

bynerental.com

Material Handling

Heavy lifting solution

Forklifts

- 2 to 16T
- Safety features including tilt lock valve and gas springs with automatic lock

byrnerental.com

Hoist & Access

Hoists

- ALIMAK Twin cab or single cab
- 20 to 200M

Mast climbers

- HEK twin or single
- up to 200M

Material hoists - lift and move heavy materials or people vertically. It's like an elevator for construction sites

Mast climbing work platforms - platforms that move up and down along a building, allowing workers to access different heights and stay in safe platform to perform their work, more effective, efficient and safer than scaffolding

byrnerental.com

Air & Steam

Compressor

- Oil free/ diesel power
- 185 to 1500 cfm

Desiccant Dryer

- 1750CFM Desiccant Dryer (150-175psi)
- 1600CFM Desiccant Dryer (150-175psi)

Steam boilers

- We provide boilers 2 to 10T

Mobile Lighting

- Solar/Diesel engine towers
- LED/metal halide
- Diesel power/ solar
- 400W / 500W/ 1000 W
- Floodlights: 150w & 400w
- Vertical mast up to 9m

byrnerental.com

Cargo Containers

Meets with the offshore oil & gas DNV 2.7-1, EN12079 certification and ISO/CSC transportation certificated

Various purposes units are also provided:

- Hazardous Cargo Containers
- Workshop Containers
- Store Containers
- Rigging Containers
- Reefer Containers
- Cargo Baskets
- Cargo Toolbox's
- Half Heights
- Lifting Frames

Sanitation

Ablution

- Various sizes from 8x8ft to 40x12 ft
- Cabins/container
- Various types such as People of determination, All male, All female, Mix type, Asian/European and VIP

Showers

- Various sizes from 32x8ft to 40x12 ft
- Cabins/container

Portaloo

Water Tanks

- 1000 / 3000 / 5000 gallon

Other value added solutions :

- Water and sewage & cleaning solution
- Water and waste water treatment, water desalination plants and equipment

bymerental.com

Welding Equipment

Welding machine

- Electric / diesel
- 375A to 500A
- Skid mounted / wheel mounted
- Fitted with lifting hook and MPI certificate
- Output ranges from 100-500Amps with 3kVA auxiliary power
- Optional conversion to zone 2 use

Climate Control

We provide 1 stop solution for your requirement from system design to installation (including cabling, chiller, heat exchanger and generator etc)

We also provide Mud cooling solution.

AC Floor standing Split units

- 5-10TR

Package AC unit

- 5 to 20 TR
- 30-50 TR Industrial

Chiller with pumps and Air handling units

- 150 to 500TR

Heat Exchangers

CASE STUDY – CAMEL FESTIVAL

Client Brief

The client required support for their large scale event in Riyadh, The Camel Festival.

Over a 40 day period, The Camel Festival draws visitors in their thousands as well as participating camel owners from all over the world.

Equipment Supplied

Power supply with secondary distribution to the event area, sanitation units, material handling equipment and powered access platforms.

Solution

Byrne provided equipment as well as site management services including meeting every aspect of the tournament organisers requirements, from site infrastructure (corporate chalets, operational cabins, generators and toilets) and installing sponsorship signage both on and off the course.

Result

The delivery, installation and commissioning of equipment, inclusive of phase 1 power with secondary distribution, was successfully completed in just 4 days across 17 different site locations.

CASE STUDY – EUROPEAN GOLF TOUR

Client Brief:

The client required support for a popular sporting event with equipment as well as manpower to manage certain operations of the event facilities.

Equipment Supplied:

Temporary buildings - offices and ablution units as well as supporting services and manpower inclusive of janitors, waste removal and water supply.

Solution:

Byrne Equipment Rental provided a single source solution from the build up stage right through to the de-mob in the following days of the event.

Result:

This event took place directly after the Formula E-Prix in Riyadh and therefore there was a big logistics challenge to move all kit from Riyadh to Jeddah in a short space of time. Byrne successfully executed this with no delays or shortfalls of equipment. Byrne achieved customer satisfaction from the client by meeting and exceeding their requirements and expectations.

CASE STUDY – FORMULA E

Client Brief:

The client required support for a large scale televised event, Formula E, over a period of 2 days.

Equipment Supplied:

71 units of Temporary Buildings inclusive of mixed ablution units in multiple configurations; VIP, People of Determination units and regular 20ft, 40ft, 32ft units, cabins utilized as office space and ticket offices, reefers and storage containers.

Solution:

Byrne supplied the equipment to the clients exact requirements as well as supplying water and sewage management services and providing 24/7 on-site support.

Result:

Byrne has supported this event since it was first held in 2019. Since then, the event has been held every year, excluding 2020 due to the pandemic, and Byrne has been contracted to supply our equipment rental solutions each time in 2019, 2021 and 2022. This is testament to Byrne's successful execution of the requirements at hand and demonstrates the high level of client satisfaction achieved.

CASE STUDY – FORMULA ONE

Client Brief:

The client required equipment to support their high profile, public event that called for stringent safety measures due to the extreme nature of the activities during the event.

Equipment Supplied:

Over 200 pieces of equipment inclusive of ablutions and temporary buildings.

Solution:

Byrne was tasked with the challenge of supplying ablution units to be placed on the race track - a first for this event and for Byrne. To accommodate, Byrne developed bespoke units that would be suitable while taking into consideration the strict health and safety requirements - some of the units were very close to the turns on the track thus correct placement and positioning of the units was critical. Byrne also supplied water and sewage management which had to be installed and managed with great care as any water spillage could cause serious problems in this environment.

Result:

This event presented some challenges for the team however Byrne executed the event with great success drawing on from their years of experience in the industry.

CASE STUDY – FAN ZONE

Client Brief:

For both after race concerts in December and March, the client required support with their back of house operations including offices for the site and event management crew.

Equipment Supplied:

Over 100 Temporary building units and Sanitation.

Solution:

Byrne utilised their temporary building units in varying configurations to meet the clients exact requirements. A back of house Artist village for dressing rooms and prep areas was created as well as front and back of house offices, ticketing welfare units and ablution units for all concert patrons with an added focus on VIP hospitality and people of determination.

Result:

The Byrne KSA team pushed boundaries much further than ever before and the appreciation was shown from the client who said,

“We would like to extend a special thank you to the team at Byrne Equipment Rental for their efforts in delivering a fantastic service for the F1 Fan Zone.

The event was a huge success and it was a pleasure to work with the team at Byrne Equipment Rental who demonstrated that they are a dedicated, hard-working team who are skilled at what they do”.

CASE STUDY – MDL BEAST

Client Brief:

MDL Beast is a music festival in Riyadh, first held in 2019 and since inception, has attracted visitors in their thousands, in excess of 400,000. The client required facilities to accommodate the large volume of guests that would attend.

Equipment Supplied:

Temporary buildings and Sanitation facilities inclusive of various configurations such as VIP, standard and people of determination units.

Solution:

Byrne supplied a total of 72 sanitation units for the event in a variety of configurations to ensure the units were inclusive and all requirements were met. The units were positioned across the large site to ensure ease of access for the festival goers.

Result:

The event has been running successfully since 2019 and Byrne have been proud to support the event on an annual consecutive basis. It took just three months to turn an enormous patch of sand 40 minutes outside of Riyadh into the impressive MDL Beast's festival site that spans across 5 performance areas.

CASE STUDY – RIYADH CAR SHOW

Client Brief:

The scope was to provide wild air and comfort cooling for the Riyadh car show that was under 5 tented structures covering 10,000sqm as part of Riyadh Season.

Equipment Supplied:

A range of equipment was supplied including 11 x AHU's 200Ton and 8 x Chillers 230Ton units.

Solution:

To support our clients requirements 1,600Ton of chilled water and 2,200Ton of air was provided. The air was distributed through internal ducting at ceiling level across the 10,000sqm with an ambient temperature of 200c.

Result:

The client was able to create a consistently cooled atmosphere to take care of not only the customers comfort cooling but to maintain a managed temperature for the high value cars on display.

CASE STUDY – WINTER WONDERLAND

Client Brief:

Winter Wonderland is an endless festival of activities, plays, and shopping opportunities held across a 200,000sqm open space and is home to the largest skating rink in the Middle East. The client required support from Byrne to execute the long running event.

Equipment Supplied:

Power Generation - 32MVA, 62 Ablutions inclusive of VIP, regular and people of determination configurations.

Solution:

Byrne met the clients exact requirements and supplied equipment to cater to the vast and diverse range of visitors.

Result:

The event was a huge success, attracting in excess of 8 million visitors over the course of five months.
