SOLAR POWER SOLUTIONS

We provide efficient, eco-friendly solar power solutions to support your business with sustainable energy across industries, offering:

Clean Energy

Off-grid Capability

Cost Efficiency

Reliability

Environmental Responsibility
(Reduced Carbon Footprint)

Customisation

Less Noise Pollution

Smart Integration &
Remote Monitoring

Minimised Operation
Time & Efforts

Solar-powered Camps

Temporary buildings with solar panels

Solar-powered Lighting Towers

LED lights with a battery for lighting up to 13 hours

BESS (Battery Energy Storage Systems)

Ideal for managing peak load applications (e.g. cranes, hoists/mast climbers), with a lower-rated generator, reducing emissions, fuel consumption, and noise for a quieter environment

Solar Panel Solutions

High-efficiency solar panel

SOLAR-POWERED TEMPORARY BUILDINGS

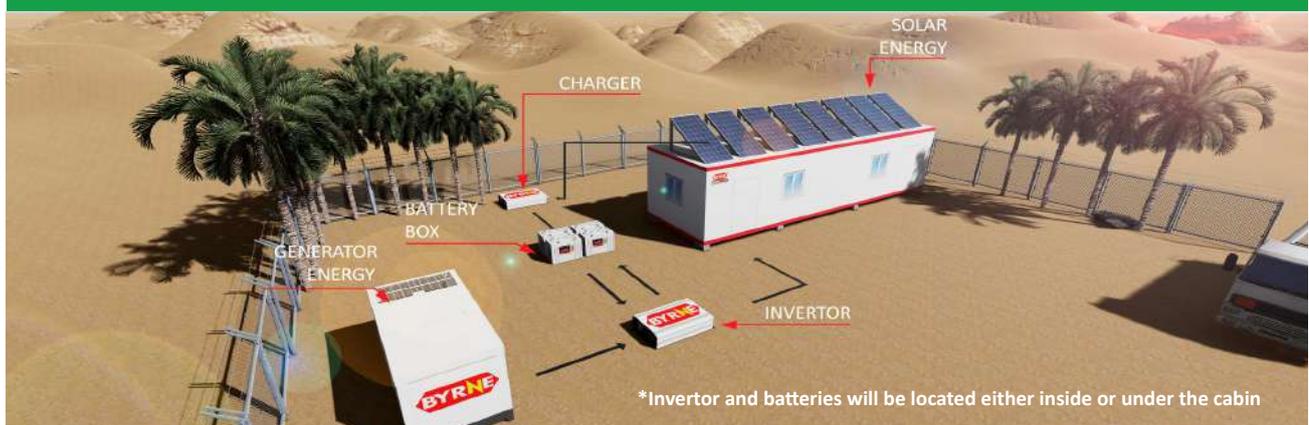

Uninterruptable Solar Solution – Without Battery

During the day, solar panels supply power directly. At night, a generator provides power.

Uninterruptable Solar Solution – With Battery

During the day, solar panels charge the battery and supply power. At night, the battery provides power, and a generator is used only if the battery is depleted.

CASE STUDY

SCHLUMBERGER - OIL AND GAS RIG CAMP SOLUTION

Client Overview: Schlumberger, a leading oil and gas services company, required a 150-man rig camp with full site services in a remote desert in Saudi Arabia.

Solution Provided: Byrne delivered

- **Accommodation & Welfare:** Provided accommodation for 150 staff with dining and leisure areas.
- **Essential Services:** Delivered essential services ensuring efficient camp operation in desert environment.
- **Turnkey Support:** Managed logistics from setup to maintenance, ensuring seamless operational solution.

Operational Support: We coordinated infrastructure delivery and setup, ensuring early camp operation and managing logistics, maintenance, and support.

Result: The rig camp provided Schlumberger with a functional remote base, ensuring workforce comfort, safety, and efficient exploration project execution.

CASE STUDY

LIWA FESTIVAL

Client Overview: Byrne provided remote camp facilities and infrastructure for 1,200 staff managing and operating the LIWA Festival, a major UAE desert event.

Solution Provided: Byrne deployed

- **Infrastructure Support:** Over 600 modular units: offices, ablutions, kitchens, mess halls, accommodations.
- **Utilities & Services:** Generators, lighting, water, sewage, fuel, and housekeeping ensured fully operational site.
- **Event-Specific Support:** Portable toilets and event power ensured smooth, seamless experiences for guests.

Operational Support: Our teams maintained an on-site presence throughout the festival, overseeing service delivery, maintenance, and 24/7 support.

Result: Byrne's camp solution ensured smooth LIWA Festival execution, delivering comfort, reliability, and functionality in challenging conditions.

CASE STUDY

H & P CAMPS

Client Overview: Our client needed scalable remote camp infrastructure to support 800 staff across five isolated drilling sites in Saudi Arabia.

Solution Provided: Byrne delivered

- **Infrastructure Deployment:** Supplied over 250 modular units across five camps, including offices, sleeping quarters, kitchens, and ablutions.
- **Power & Lighting:** Installed generators and lighting towers to ensure 24/7 operations.
- **Essential Services:** Provided essential services including water, sewage management, fuel, and housekeeping for workers, management, and security.
- **Ancillary Support:** Managed logistics, installation, and operation to ensure optimal camp performance and safety.

Operational Support: Our teams remained on-site, overseeing operations, maintenance, safety, and efficiency across five camps.

Result: The successful delivery of remote camps ensured safety, comfort, and operational continuity across multiple drilling sites.
